Woodsmith mine (construction)

Wilton International

Materials Handling Facility

Sub-surface headframes

Direct economic benefits

Job creation

- 2,000 people currently working on the Woodsmith Project
- 1,400 are local, defined as normally residing within a 1-hour commute
- This represents over 70% of the workforce, exceeding our forecast of 35%
- 42 apprentices – engineering and cyber security
- Long term commitment that 80% of our operational workforce will be local

Local procurement

£143 million supply chain expenditure in the region in 2023

Growing the regional economy

- The economic output of the project has added £1.5 billion to the regional economy of Yorkshire and the North-East since construction started
- This included £305 million in 2023

Thriving Communities Programme

Livelihoods	Education	Health	Neighbourhoods
